PATENT NO.: 6,907,593 B1
DATED : Jun. 14, 2005
INVENTOR(S) : Steven Teig et al.

It is certified that errors appear in the above-identified patent and that said Letters Patent is hereby corrected as shown below:

Title Page.

Item [57], **ABSTRACT**, reads "Some embodiments provide a method of pre-computing attributes of routes for nets in a region of a design layout. The pre-computed attributes are used by an electronic design automation application that partitions a design-layout region into a plurality of sub-region." and should read

--A method for pre-computing net route attributes for a region of an integrated circuit (IC) is presented. In one embodiment, the pre-computed attribute is the intersect cost associated with a group of previously identified sub-region edges. In another embodiment, the pre-computed attribute is the usage cost associated with a group of previously identified sub-region paths. Such pre-computed numbers may be used by an electronic design automation application that identifies routes for nets in the IC region. --
